

# 360 Survey search

# Why?

## Problem

In the global search option, 360 survey search option is not available. We are providing a search option for 360 surveys, folders and tools.

## User Story

Jane, is a HR manager and wants to search a 360 survey created previously from the dashboard. Currently, global search option does not list the folders and 360 surveys.

The screenshot shows the Workforce dashboard interface. At the top, there is a navigation bar with the 'Workforce' logo, a search bar containing 'Global search for users, surveys, tickets', and an 'Admin' dropdown. A red box highlights the search bar. Below the navigation bar, there is a section for 'My Company' with '3 Employees' and a 'Manage Employee Roster >>' link. A 'Tutorial video' link is also present. The main content area features a table with columns for 'Study Name', 'Type', 'Created', 'Status', 'Deployments', and 'Responses'. The table contains two rows of survey data. Above the table, there are buttons for 'Sync Responses', 'Use Existing Survey', and 'Create a New Study'. A red box highlights the 'Sync Responses' and 'Use Existing Survey' buttons.

Study Name	Type	Created	Status	Deployments	Responses
1 WorkXO	Survey	May 07 2021 2 weeks ago	Active	1	2
2 QuestionPro 360 Standard Assessment	360 Review	Apr 29 2021 3 weeks ago	Active	1	1

This screenshot shows the same Workforce dashboard interface, but with a specific search query entered in the search bar. The search bar contains the text 'Search surveys, folders, or tools'. A red box highlights the search bar. The rest of the dashboard interface is identical to the previous screenshot.

# | Solution

## Solution

We will provide a separate search bar to search 360 surveys, folders, and tools in the header.
