

## Locked Extraction

Lock extracted questions to source question

# Use Case

As a survey programmer, I want changes made to the answer options in the source question to reflect in the extracted question, so that I don't have to make the same changes in multiple extracted question.

# Solution

We will provide an option to lock the extracted question to the source question while setting up extraction logic.

If this option is enabled while setting up logic, the extraction question will be locked to the source question.

Any changes made to the answer options in the source question will be reflected in the extracted question.
